PROFILE INFO

As a full stack web developer, I am skilled in both front-end and back-end web development, enabling me to design and implement complete web applications. I have a strong foundation in programming languages such as HTML, CSS, JavaScript, and popular back-end languages like Node.js, tc. Additionally, I have experience working with front-end frameworks such as React, as well as back-end frameworks like Express, Django, or Ruby on Rails. I am proficient in various tools and technologies related to web development such as Git, cloud computing, databases like SQL and NoSQL, and web servers like Apache and Nginx. I possess excellent problem-solving skills and the ability to work independently and as part of a team. My keen eye for detail allows me to create responsive and user-friendly web applications.
I have worked on various projects in industries such as e-commerce, healthcare, finance, and media. I am always eager to learn and stay up-to-date with the latest technologies and trends in the field. With my skills and experience, I am confident in my ability to deliver high-quality web applications that meet the needs of clients and end-users.

EXPERIENCE

As a web developer with zero experience, I am eager to learn and grow in the field of web development. Although I may not have direct experience in the industry, I have a solid foundation in programming languages such as HTML, CSS, and JavaScript, and I have worked on various projects and assignments to improve my skills.
I have also completed online courses, tutorials, and attended web development boot camps to gain knowledge and understanding of front-end and back-end web development. I have experience working with popular front-end frameworks such as React, and back-end frameworks like Express. I am also familiar with various tools and technologies related to web development such as Git, databases like SQL and NoSQL, and web servers .
Although I am new to the industry, I am a quick learner, have excellent problem-solving skills, and can work independently or as part of a team. I am passionate about web development and am excited to apply my skills and knowledge to real-world projects. I am eager to learn from experienced web developers and gain valuable experience in the field to become a skilled and proficient web developer.

TECHNOLOGY FAMILIAR WITH

- Front-End Web Development
- HTML 5
- CSS 3
- Bootstrap 4
- Javascript ES6
- DOM Manipulation
- jQuery
- Bash Command Line
- Git, GitHub and Version Control
- Backend Web Development
- Firebase
- React.js
- React Hooks
- Web Design
- Deployment with GitHub Pages, Heroku and MongoDB Atlas

- Node.js
- NPM
- Express.js
- EJS
- REST
- APIs
- Databases
- SQL
- MongoDB
- Mongoose
- Authentication
